

9th

ATA Conference and CME Program

Sunday
July 2, 2006

Long Beach Convention Center
300 Ocean Boulevard
Long Beach, California

presented by

Office of Continuing Medical Education
Keck School of Medicine of the
University of Southern California

and

The American Telugu Association

COURSE DESCRIPTION

The Office of CME at the Keck School of Medicine and the ATA are joint-sponsoring a CME course to provide an update on recent developments in metabolic syndrome, diabetes and related complications. In addition, issues with hepatitis and high risk pregnant patients will enhance the knowledge of the practicing obstetrician, internist and cardiologist who may be counseling such patients.

Diabetes has been an increasingly difficult medical management issue in the Indian population with many organ failures – renal, retinopathy and cardiovascular morbidity and mortality.

OBJECTIVES

At the completion of the program, participants should be able to:

- understand the complex nature of diabetes,
- list the latest advances in the treatment of the patient with diabetes,
- describe the new trends in the diagnosis and treatment of hepatitis.

COURSE INFORMATION

Location:

Long Beach Convention Center
Promenade Meeting Room #201 (Ballroom Level)
300 Ocean Blvd
Long Beach, California
